MATTHEW DARABASZ

Junior Software Developer | IT Professional

@ mattdarabasz@gmail.com   🔗 https://dasz4376.github.io/portfolio/   📍 Wenonah, New Jersey

EXPERIENCE

Software Developer

Symmetry EAP

📅 2025 - 2026   📍 Wenonah, NJ/Hybrid

- Built and maintained the company website using React, TypeScript, and TailwindCSS
- Assisted with the design and implementation of internal employee assistance portals
- Helped configure and maintain basic IT systems, workstations, and internal tools
- Developed internal features such as scheduling and client management tools with guidance from stakeholders

Software Developer

Paragon Wellness Center

📅 2024 - 2025   📍 Philadelphia, PA

- Built and maintained a modern, responsive company website using React
- Worked closely with non-technical staff to translate business needs into simple technical solutions
- Assisted with setup of company devices, email systems, and basic network configuration
- Provided ongoing updates, fixes, and technical support as the business evolved

Software Developer

FiveM Gaming Community

📅 2022 - 2024   📍 Remote

- Developed and maintained custom gameplay and UI features using JavaScript, React, and Lua.
- Enhanced UI efficiency, increasing user satisfaction through optimized design elements.
- Collaborated with a distributed online team and responded to live issues and feedback.

EDUCATION

Associate of Applied Science (AAS) - Information Technology (Software Development)

Purdue University - GPA 3.4

📅 2021 - 2023

SUMMARY

Early career full-stack Junior Developer with hands-on experience building and maintaining web applications. I've worked on small teams and early-stage products, contributing across frontend, backend, and infrastructure while learning from real-world use cases. Motivated by mentorship, collaboration, and continuous learning, and looking for a role with opportunities to grow under experienced engineers.

KEY ACHIEVEMENTS

💎 **Improved Site Performance**

Increased website performance through UI optimizations and code refactoring.

💎 **Implemented IT Systems**

Led deployment of IT systems for 30+ workstations using Azure, enhancing operational productivity.

💎 **Enhanced Code Quality**

Reduced bug incidence by streamlining code review and testing processes.
